**INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITY**

International application No.
PCT/US2005/001381

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Yes: Claims	1-8
	No: Claims	
Inventive step (IS)	Yes: Claims	1-8
	No: Claims	
Industrial applicability (IA)	Yes: Claims	1-8
	No: Claims	

2. Citations and explanations (Rule 70.7):

see separate sheet

I. NOVELTY

1.1 The subject-matter of claims 1-8 is novel as none of the prior art documents cited in the Search Report or acknowledged in the description discloses all of the features of claims 1-8.

II. INVENTIVE STEP:

2.1 The documents cited in the Search Report do not give any suggestion to the skilled person to modify a gear clutch assembly as disclosed in EP-A-0 524 691 in the manner specified in claim 1.

The features of claim 1, that the number of keys is evenly divisible by the difference in the number of grooves between the hub and the gear, so that engagement of the gear and the hub in any angular position is possible, result from a step being non-obvious in view of the cited prior art. Thus the gear clutch assembly according to claim 1 involves an inventive step.

2.2 The same reasoning applies, mutatis mutandis, to the subject-matter of corresponding method claim 6.

III. INDUSTRIAL APPLICABILITY:

The subject-matter of claims 1-8 can be manufactured in industry, and thus looked upon as being industrially applicable.
